For more specific grants pertaining to individual subjects, geographic locations, private sector corporate sponsors, special interest groups, certain nationalities, religious affiliations, projects, etc., please refer to the bibliography and web-site listings. Some of the listings provide scholarship funding while others present opportunities to enhance your academic experience with work both in the United States and abroad. If you have any additional sources to recommend, suggestions, corrections, or questions regarding this directory please contact our office. We welcome your feedback and suggestions. Feel free to contact us at [sipa\\_admission@columbia.edu](mailto:sipa_admission@columbia.edu). Best wishes for success in your grant and fellowship search!

**Searching for outside funding:**

This Directory is meant to serve as a resource guide to external types of educational funding. It provides an overview of graduate grants and fellowships that are broadly applicable to MIA & MPA students. While many potentially productive sources are listed, **this directory is by no means comprehensive**. Every effort has been made to contact, pre-screen, and update these sources, but we cannot guarantee that all listings will have available fellowships in a given year. If you feel that you qualify for any grant or fellowship, **contact the foundation** for more specific up-to-date information on their rules and requirements. We also suggest that you **conduct your own individualized search** utilizing:

- Web sites
- Printed publications (a bibliography is located in this directory and many of these resources are available at public libraries.)
- Professional and community organization contacts.

Good luck in your search!
